Dear Sir

Regional Land and Water Plan Submission

Thanks for the opportunity to forward a submission on the Regional Land and Water Plan.

Rule 30 – Moonlight Creek is excluded but should be in Schedule A.

4.3.6 – Have another look at this Policy.

Overall I think this Plan is a sensible outcome especially if those landowners in the Lake Brunner Catchment who have not at this stage participated in supplying farm plans are made to do so.

I wish to be heard.

Regards

Paul Berry
