Other Party Signature

WORK PROGRAMME APPROVAL		
	SIGNATURE OF APPROVAL	DATE
The West Coast Regional Council		

Show overburden and topsoil stockpiles (if any) on plan.

- 4) Number of personnel on site:
- 5) Accommodation or buildings on site? Yes/No
If yes, describe:
- 6) Access: Will any new access tracks be constructed? Yes/No
If yes, show on Plan

D. WATER MANAGEMENT

- 1) Describe proposed water management system – water supply, settling/recycle ponds, and discharge. Include any special measures for stormwater runoff.
Please note: Also show the water management system in the attached plan/photo.
- 2) Width of buffer zone if stated in consent:
- 3) Is any watercourse to be diverted, or quarried through? Yes/No
Please note: "watercourse" includes small intermittent flows eg dry beds.
- Consent Number(s)

E. REHABILITATION

- 1) Post Mining Vegetation
- a) Has the post mining vegetative cover been discussed with the landowner/occupier.
Yes No
- b) What is the intended post-mining vegetation cover?
Pasture Exotic Forestry Indigenous Forestry
Other (*Specify*)

3) a) Will revegetation be undertaken: -
Progressively Seasonally End of Life

b) **Maximum area unvegetated any time during year:** **ha**

4) Other Rehabilitation

a) Will access tracks need rehabilitation? Yes/No
b) Will land drainage have to be provided for? Yes/No
c) Will diverted watercourses have to be restored to their original position? Yes/No

5) Briefly describe equipment and methods to be used to rehabilitate disturbed areas to revegetated land:
eg. replacement of overburden if applicable, contouring, provision for drainage, respreading of topsoil and re-establishment of vegetation, and re-establishment of watercourses.

6) Describe condition of site after final re-vegetation.

Include landform, drainage, standing faces or batters, or permanent dumps, as applicable.

F PLAN OF LICENCE

(2 copies required: - 1 each for WCRC and Consent Holder).

Please attach a contour plan/aerial photo at 1: 5,000 or other suitable scale to cover all site activity and show:

- Resource consent (Mining Permit) boundary in area to be worked
- Access roads and tracks
- Surface facilities, buildings

- Quarry outline as worked to date
- Zone proposed for quarrying in the year ahead
- Topsoil and Overburden stockpiles

- Location of watercourses around quarry
- Intake and discharge drains
- Settling, recycling and/or fines retention ponds

- Intended exploration activities; trench, pit, drill sites
- Any other information called for in the Work Programme conditions of the Consent

G OTHER CONDITIONS AND REQUIREMENTS

The following other responsibilities may require specific action – be aware of these and comply as necessary;

- * Timberlands, Minister of Forests or DOC Access requirements
- * Or other Landowner/Occupier Access agreements
- * District Council Consent to work within 30 metres of formed legal road
- * Health and safety of the staff, public and livestock
- * Explosives not to be used without the approval of the Inspector of Surface Mines.

Note: any change from this Work Programme during the year will require a new Work Programme and Plan to be submitted.
