Profile

Sketch plan only.  
 L28/26 - compressor site  
 Mokininii River  
 May 2006  
 C. Bass

Platform: Appears to have been cut out of bank  
 measures 5m long x 5m wide. Stone wall  
 3m high, w. top of platform 3m above track.

- Compressor sitting in small "gully"
- water (peltor) wheel sitting against side of stone wall, along with several drill bits. More drill bits on top of platform
