I/we support the application numbers ticked on the back of this form (tick one)
I/we oppose the application numbers ticked on the back of this form

The reasons for my/our submission are as follows (*further information attached (tick for yes)*)
[State in summary the nature of your submission, giving reasons]
1 Support the proposed Dam, but I am worried about the erosion of beaches to the north of the Mokihinui river to old man rock. These beaches have been used as mustering tracks for the last 100 years and are still used. Also driftwood will be stopped by the dam, the locals rely on this for heating and for some a source of income.

I/we wish the consent authority to make the following decision [Give details, including the nature of any conditions]
To address this issue fairly and act appropriately.
1 beach erosion to the north of the Mokihinui river to old man rock which is still used for mustering.
2 to return trees from above the dam to the lower end of the river so that the locals still have a natural resource for heating.

Use the tick boxes below to indicate the resource consent applications your submission concerns.
