Yes

My/our submission is that: (state in summary the nature of your submission. Clearly indicate whether you support or oppose the specific proposal, or wish to have amendments made, giving reasons)

Oppose the present plan because:

- a) No erosion since I have owned the property approx 3 years.
- b) to install seawall as per plan would mean the removing alot of mature trees + vegetation that affords great protection from the sea (At no cost)
- c) A solid bank of native trees Flax, bamboo etc will give far more protection in major events than a 500mm seawall
- d) the temporary wall built Hampden St north has proved successful helping to rebuild the shoreline. Stafford to Hampden St section needs to be built up to the temp wall height.

I/we seek the following decision from the Local Authority: (give precise details)

The cost of this project and the repayment for the rate payers has not yet been published. This needs to be done
