

Note: this worksheet is numbers only, with no formulas, links nor totals. If the financials are updated they will need to be recopied into this sheet.

Introduction

The financial statements included in the Council's Long-Term Plan 2024-34 have been amended to reflect the inclusion of the changes to the original Westport flood protection scheme from 2026/27. All other content is unchanged from the original version adopted on 1 October 2024 . For example, the amended Long-Term Plan does not reflect the impact of actual financial results for the 2024/25 and 2025/26 financial years, or the changes made in the 2025/26 and 2026/27 Annual Plans.

On the following pages, are changes to the amended LTP which are either specifically related to the Westport flood protection project or are deemed to have an impact on the project. The original financial statement or narrative is located at the page number noted. In some instances, the original wording is noted and the amended wording or financial statement is recorded.

Replacement Financial Statement is below  
Infrastructure and Resilience

Total expenditure

Council expects to spend \$50.3 million on new or replacement infrastructure for flood and erosion protection between 2024 and 2054 (30 years). Over the same period, \$228.4 million is expected to be spent on non-capital related costs including ongoing maintenance, insurance, engineering expertise, modelling and loan repayments across the rating districts.

| Infrastructure activity              | Capital expenditure | Operational expenditure |
|--------------------------------------|---------------------|-------------------------|
| Flood and coastal erosion protection | \$50.3M             | \$228.4M                |

Capital expenditure

Council’s forecast capital programme will continue to see significant expenditure in years 1 to 3 of this LTP. The primary driver of this expenditure is the Westport Flood Protection project which is anticipated to be completed in 2027.

Funding for additional capital works have been sought as part of the co-investment and flood resilience proposal in Te Uru Kahika’s *Before the Deluge*. This proposal identified additional funding required for Hokitika and Franz Josef to complement the Climate Resilience projects, as well the Wanganui River protection. However, given that the final funding decision for co-investment was yet to be made prior to the change in government in October 2023, these projects and their expenditure have not been included in this Infrastructure Strategy.

Projected capital expenditure

| Project                           | Rates/Debt | Grant funding | Total Estimated Cost |
|-----------------------------------|------------|---------------|----------------------|
| Westport Flood Protection Project | \$8.37M    | \$15.6M       | \$23.97M             |

Amended Page 77

Amended Page 77

Total Expenditure

Council expects to spend \$91.9 million on new or replacement infrastructure for flood and erosion protection between 2024 and 2054 (30 years). Over the same period, \$234.4 million is expected to be spent on non-capital related costs including ongoing maintenance, insurance, engineering expertise, modelling and loan repayments across the rating district.

| Infrastructure activity              | Capital Expenditure | Operating expenditure |
|--------------------------------------|---------------------|-----------------------|
| Flood and coastal erosion protection | \$91.9 million      | \$234.4 million       |

Capital Expenditure Westport

This amendment is required due to the forecast capital expenditure for the Westport flood protection project being significantly higher than expected. The projected cost of the Westport project has now increased from \$23.97 million to \$47.7 million for option one the core protection scheme and \$48.8 million for option two the optimised hybrid scheme.

Funding for this additional capital works will be sought from other entities, but the local Westport community contribution will increase and need to be funded from borrowings which will be repaid via property rates.

Council has made applications for co-investment and flood resilience funding in the proposal titled in Te Uru Kahika’s *Before the Deluge*. This proposal identified additional funding required for Hokitika and Franz Josef to complement the Climate Resilience projects, as well the Wanganui River protection. Additional flood protection has been completed (as at June 2026) or is underway for the Hokitika, Franz Josef, Greymouth communities totalling \$42.8 million with a \$9.3 million loan funded local share.

The following table summaries the cost and funding available to complete the Westport flood protection.

| Infrastructure activity – completion summary (June 2026) | Rates/debt     | Grants and other funding | Total estimated cost to complete |
|----------------------------------------------------------|----------------|--------------------------|----------------------------------|
| Westport Flood Protection project – option 1             | \$27.7 million | \$16.4 million           | \$44.1 million                   |
| Westport Flood Protection project – option 2             | \$28.8 million | \$16.3 million           | \$45.2 million                   |

| Westport flood protection work programmes | Council may not be able to complete the work on time, within budget and / or in accordance with the conditions of the Agreement. | <br>Medium | Council generally expects to be able to procure the services required to complete the work on time, within budget and in accordance with the conditions of the Agreements. The budgets and timelines have been set based on Council's experience and historical knowledge of work of this nature. Council has, and will be, recruiting additional engineering capability to assist with mitigating these risks. |

Amended wording

The council is amending its 2024-2034 Long Term Plan to reflect the revised work programme and the cost of completing the protection works. This reset process provides the council with more accuracy and certainty when it moves to procure the revised work programme that it can be delivered for the cost identified. Council has also added additional project management resources to assist with delivery and mitigating the various risks associated with the project.
