

THE WEST COAST REGIONAL COUNCIL

Media Release

18 August 2023

The West Coast Regional Council has granted an extension of time for the Taylorville Resource Park to comply with the Abatement Notice issued on 20 July 2023 to cease the discharge of odour to air.

A request was received from the Resource Park, following the incident which occurred on 3 August resulting in a Non-disturbance Notice being issued by WorkSafe, to extend the time to comply with the Abatement Notice. The Non-disturbance Notice, which is not due to expire until 18 August, has prevented the Resource Park with accessing the site to undertake the required work. This is the same date as the Abatement Notice.

Council has obtained legal advice and has granted an extension to 31 August 2023 to enable the Resource Park to undertake the required works to comply with the Abatement Notice.
