

## Opinion Survey on the Co-funding of the advanced flood warning system for Westport

Please return this page in the envelope provided, complete the form online at [www.wcrc.govt.nz](http://www.wcrc.govt.nz) by following the prompts, or email your responses to [westportfeedback@wrc.govt.nz](mailto:westportfeedback@wrc.govt.nz)

Kevin Terry Boyd  
81 Cape Foulwind Road  
RD 2  
Westport 7892

44116510489502 - 4885 2/2

Options	Yes or No
I support the West Coast Regional Council forming a Westport Rating District for the purpose of meeting the co-funding requirements of the advanced flood warning system proposal for Westport to secure the co-funding of \$400,000 from central government.  <i>I understand that by voting <b>NO</b> I am stating that I <b>DO NOT</b> want the project to proceed.</i>	NO
I agree with the proposed governance structure for the Westport Rating District Joint Committee	NO
I agree with the proposed boundary of the Westport Rating District	NO

**Please feel free to include any additional comments below:**

The credibility of the West coast Regional council is, at best abysmal.  
How much money is bled out of the Buller to provide jobs in Greymouth?  
Clean out the Flood overflow, dig out and sell the gravel from the Buller

I agree with the proposed boundary of the Westport Rating District	No

**Please feel free to include any additional comments below:**

I expect the regional council to accept the offer of funding from BT Mining and to not go ahead with any rating district. I would like the council to come up with a proper structural plan for Westport flooding and not a series of ad hoc one off solutions.

I support the West Coast Regional Council forming a Westport Rating District for the purpose of meeting the co-funding requirements of the advanced flood warning system proposal for Westport to secure the co-funding of \$400,000 from central government.  <i>I understand that by voting <b>NO</b> I am stating that I <b>DO NOT</b> want the project to proceed.</i>	No
I agree with the proposed governance structure for the Westport Rating District	No

1. We strongly disagree with this proposed rating district as believe we are not going to benefit from this and is possible it could worsen our situation if the Westport floodwall was built.
2. The proposed committee has no expertise in this field.
3. The early warning system proposed will not be useful in a storm surge so we are looking at river inundation which does not effect us in Bruning Road or Carters Beach to a degree we would need evacuation or early warning. We believe there is enough info out there and with our own observations we can deduce what is happening and how to handle it.
4. The early warning system is unworkable in reality and the money involved in establishing and operating this would be better invested in in removal of the natural gravel buildup in the rivers including the Orowaiti and Buller and repair existing stop banks at the very least.

Please feel free to include any additional comments below:

- ① The flood prevention doesn't affect us as we live on a terrace on Highway 6 not Butler Gorge Rd.
  - ② The money for a warning system is too much to pay for something that is unpredictable. Perhaps dredging is a better option.
  - ③ We feel changing the Westport Rating District will only cost us more and we don't need to contribute to a scheme that doesn't affect us & are worried this will start a trend of more rates for us with no benefits.

I AGREE IN <sup>PRINCIPLE TO</sup> THE WARNING SYSTEM HOWEVER I SIMPLY CANNOT AFFORD TO CONTRIBUTE TO THE FUNDING OF SUCH AS I DO NOT HAVE THE FINANCIAL ABILITY TO CONTRIBUTE. I AM A SUPERANNUATED AND I AM ALREADY EXCEEDING MY INCOME WITH STANDING CHARGES BEFORE WE BUY FOOD. THIS MEANS I AM DIPPING INTO MY RESERVE TO BUY FOOD. JUST TO LIVE WITHOUT ANY OTHER INCENTIVES. WE ARE ALREADY PAYING ENOUGH REGIONAL RATES FOR NOTHING OF ANY SIGNIFICANCE IN THIS DISTRICT

**Please feel free to include any additional comments below:**

If you want to save Westport from flooding, dredge the Buller & Orongorangi Rivers regularly. I have lived in Westport for 10 years and have lived through several cyclones and noticed what happened when the rivers were not dredged. What happened to the shore buildings and what happened to the river through tidal action.

**Please feel free to include any additional comments below:**

The WRC needs to continue the maintenance of the existing river protection system that has been in place for the last 60 plus years i.e. - overflow upkeep of Organ's Island. Removal of gravel from the Buller River.

- also stop investing WRC funds in the lobo factory in Ronelton - instead put that money to better use. - i.e. flood protection measures etc.

**Please feel free to include any additional comments below:**

We are already paying \$915.11 in Regional Rates, which includes \$117.62 - Regional Emergency Management & \$41.10 - One District Plan. We do not think an 8 hour early warning system is necessary at this time with another layer of bureaucracy with an 8 person committee formed. We presume the \$117.62 we pay for Regional Emergency Management covers civil defence which does an excellent job with accurate weather forecasting

There is no way you can get all Westport people across a bridge in eight hours, to go to an empty paddock. No cover, no toilet ect.  
 There is already a warning system in place in the river. Clean the --- river out like they use too.  
 What happens if the bridge goes out?

Spend \$400,000 to tell us we are going to flood. We know we are. Move everyone out of Westport and it still floods costing millions. but that's OK we still have an alarm system

Options	Yes or No
I support the West Coast Regional Council forming a Westport Rating District for the purpose of meeting the co-funding requirements of the advanced flood warning system proposal for Westport to secure the co-funding of \$400,000 from central government.  <i>I understand that by voting <b>NO</b> I am stating that I <b>DO NOT</b> want the project to proceed.</i>	No
I agree with the proposed governance structure for the Westport Rating District Joint Committee	No
I agree with the proposed boundary of the Westport Rating District	No

**Please feel free to include any additional comments below:**

Rather than spend the money on an alarm system that tells us the inevitable. That Westport is going to flood the money would be better spent dredging or removing buildup + putting rockwork and shingle bundings behind from ~~the~~ rock out of river. WRDJC more money more admin no benefit.

Options	Yes or No
I support the West Coast Regional Council forming a Westport Rating District for the purpose of meeting the co-funding requirements of the advanced flood warning system proposal for Westport to secure the co-funding of \$400,000 from central government.  <i>I understand that by voting <b>NO</b> I am stating that I <b>DO NOT</b> want the project to proceed.</i>	NO!
I agree with the proposed governance structure for the Westport Rating District Joint Committee	NO!
I agree with the proposed boundary of the Westport Rating District	NO!

**Please feel free to include any additional comments below:**

This proposal has been rushed and put together with haste, we have not had enough information and do not feel well informed. Something as important as this needs professional consultation with all those involved. Our rates are high enough for the services you provide.

**Please feel free to include any additional comments below:**

I would be happy to contribute the same as every other rate payer using a general rate across the district but not using capital value (per \$100,000).

I disagree that outlying towns would see no benefit. All rate payer money from Westport benefits projects in these areas as well.

**Please feel free to include any additional comments below:**

Yr Council need to do more work on The Flood Protection Scheme - - You should of said why it didn't meet the requirements for the scheme - The sea is eating the beaches along the coast away.

Civil Defence already gives us as much warning as we would get: If you are going to notify people by cellphone, it's a fare.  
 This is just another council tag - expensive and irrelevant.

I think 'alarms' aren't going to 'SAVE WESTPORT' we have a storm water issue & if addressed should offer protection against 'water back up + property damage'

Chose not to build on a flood plain so why should be required to pay special rate.  
Present system should be able to provide flood risk assessment.

Beach front protection I feel is more important... Remove stone from the river. Put into concrete blocks and place along Carters beach...

\* why NZTA and 1001 Representation? We have selected representation - that is enough

\* NIWA - 5 years! Is there no data ever recorded!

\* The river needs to be cleaned up gravel removed, gates to be opened at the diversion into the oranati dune high river levels; another set to allow sea access. old channel cleaned up.
